

I regret that I have not done this much sooner, but I am doing this now. Howard Stern needs to be taken off of regular cable TV. In our area, his show comes on a lower lever channel, 11, at 10:00 or 11:00pm. One night I was flipping through the channels looking for something to watch, when something got my attention, they were having a game of anal ring toss!!! I could not believe my eyes!!! Oh yes, they did blur out the private areas, but you could still see what was going on! They had a stick inserted into a womans behind, who was on all fours, while the crew tossed rings at her like throwing horse shoes!!! I saw that in less than a 30 second pause! I could not believe it! It should not even be happening, but I would expect such trash on a pay channel, which we don't have! We have the basic cable! Please do something about this!

Sincerely,
Denise Hyde
